Conditions of the Registration:

1. The registration shall cease to be valid in case of expiry of the validity or suspension or cancellation of any of the existing consents under Water (Prevention & control of Pollution) Act, 1974 and Air (Prevention & control of Pollution) Act, 1981 and Authorization under Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2008 and as amended issued by the Jharkhand State Pollution Control Board, Ranchi and shall remain invalid till consent (s)/authorization are obtained.
2. The Recycler or reprocesses shall submit copies of the valid consents and authorization also to the auctioneer/seller at the time of each procurement.
3. The Re-refiner/Recycler shall be responsible to ensure that the quantity of the waste (s)/procured each time is endorsed in this Pass-Book by the authorizes seller/auctioneer.
4. The Re-refiner/Recycler shall obtain a copy of the analysis report of the used oil/waste oil from the generator at the time of each procurement and submit the same to JSPCB.
5. The Recycler or preprocessors shall maintain records of hazardous wastes purchased and processed and shall file an annual returns of its activities of previous years in form 6 to the State Pollution Control Board on or before 30th day of June of every year.
6. This registration certificate shall be produced at the time of inspection upon request of an officer authorized by the Ministry of Environment & Forests (MoEF)/Central Pollution Control Board (CPCB) or SPCB.
7. The Re-refiner/Recycler shall not rent/lend/sell/transfer this registration certificate.
8. Any change in the re-refining/recycling technology, disposal facility and equipment as given in the application shall only be carried out with prior permission of JSPCB.
9. Transportation, processing, treatment and disposal of wastes shall be carried out strictly as per the Guidelines on "Management & Handling of Hazardous Wastes. 1991" issued by MoEF and in accordance with the Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2008 as amended.
10. The hazardous wastes generated from the recycling process including the residue generated in re-refining of used oil shall be disposed off as per the hazardous waste Rules.
11. The unit shall submit quarterly reports giving details of used oil/waste oil procured, quantity of the products manufactured and sold (supported with Central Excise/Sales Tax details), quantity of waste generation and its mode of disposal, to JSPCB.

12. The unit should take appropriate and adequate measures to control fugitive emission such that the Work Zone standards are met.
13. The unit should carryout Stack emission and Ambient Air Quality (AAQ) monitoring for SPM, RSPM, SO₂, NO_x and monitoring reports should be submitted by the unit to the Jharkhand State Pollution Control Board, Ranchi, as per the consent conditions.
14. Application (in triplicate) for renewal of registration shall be made well in advance, at least two months before expiry, in Form 5 along with each of the documents as per requirement of Rule 8 (1) of Hazardous Waste (Management, Handling and Transboundary Movement) Rules, 2008.
15. At the time of submission of the application for renewal of registration, the unit should submit a copy of the "Registration-cum-Pass Book", along with a statement showing point wise compliance status of the above conditions. This information should be supported with Central Excise/Sales Tax details.
16. The registration may be cancelled or suspended by JSPCB as per Rule 8 (5) of the HW Rules, in case the Re-refiner/Recycler fails to comply with any of the conditions of the registration or with any of the provisions of the Environment (Protection) Act, 1986 as amended or Rules made there under.
17. In addition to above, JSPCB may stipulate further conditions, if so required in the interest of environment protection.

18. Additional conditions :

- (1) The unit shall not do processing of waste oil.
- (2) The unit shall operate & maintain ETP regularly.
- (3) The unit shall maintain zero discharge
- (4) In no case polluted water be discharged in underground water or any surface drainage and shall maintain zero discharge.
